

Expect Traffic Delays at Millstone River Road Between Hamilton & Plumstead Beginning August 23rd

Beginning on or about Monday, August 23rd, Millstone River Road, from Hamilton Road to Plumstead Road, will be limited to one lane with alternate traffic direction from 8 a.m. to 4:30 p.m. on weekdays for approximately three weeks, in order to accommodate sewer construction on the roadway.

Delays are expected and motorists should plan accordingly. There will be signals and public notices alerting roadway users of the construction schedule.

It has been determined by the Township Engineer and Police Department that one lane, with alternating traffic, is the best possible option, as a detour through residential roadways would be detrimental to public health and safety.

The Township is working with the contractor to complete this phase of the construction as expeditiously as possible, in order to minimize its impact on residents.

Questions should be directed to the Township's Engineering Department at 908-369-4313.
