

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Transcontinental Gas Pipe line Corporation

Docket No. CP08-31-000 and
Docket No. PF06-32-000

NOTICE OF APPLICATION

(December 17, 2007)

Take notice that on December 3, 2007, Transcontinental Gas Pipe line Corporation (Transco), 2800 Post Oak Boulevard, Houston, Texas 77056-6106 filed an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations, for a certificate of public convenience and necessity to construct, operate and abandon facilities in eastern Pennsylvania and northern New Jersey that would expand its existing system by providing an additional 142,000 dekatherms per day of firm transportation capacity to the northeastern U.S. market. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866)208-3676, or for TTY, contact (202) 502-8659.

Transco proposes to construct the expansion facilities, referred to as the Sentinel Expansion Project, in two phases. Phase 1 would consist of approximately four miles of 42-inch pipeline looping in Pennsylvania as well as modifications to Compressor Station No. 195 and modifications to various other existing valve settings and meter stations in Pennsylvania. The phase 1 facilities would provide 40,000 dekatherms per day for a proposed in-service date of November 1, 2008. The Phase 2 facilities would consist of about seven miles of 42-inch pipeline replacement in Pennsylvania and a total of about 7 miles of 42-inch pipeline looping in Pennsylvania and New Jersey as well as modifications to Compressor Station No. 200 and various existing meter stations in Pennsylvania and New Jersey. Phase 2 would provide 102,000 dekatherms per day for a proposed in-service date of November 1, 2009.

Any questions regarding the application are to be directed to Scott Turkington, Director, Rates & Regulatory, Transcontinental Gas Pipe Line Corporation, Post Office Box 1396, Houston, Texas 77251-1396, telephone: (713) 215-3391 or email: scott.c.turkington@williams.com

On August 4, 2006, the Commission staff granted Transco's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF06-32-000 to staff activities involving the project. Now, as of the filing of this

application on December 3, 2007, the NEPA Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP08-31-000, as noted in the caption of this notice.

Pursuant to section 157.9 of the Commission's rules, 18 C.F.R. §157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will

be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit the original and 14 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426.

Comment Date: January 7, 2008

Kimberly D. Bose,
Secretary.

Sentinel Project Description

As part of the Sentinel Expansion Project, Williams is proposing to construct and operate the following facilities to expand its existing Transco pipeline system in Pennsylvania and New Jersey to provide additional firm transportation service capacity of 142,000 dekatherms per day (dt/d) of natural gas.

Pennsylvania:

Wind Gap Loop:

3.87 miles of 42-inch pipeline loop from Mile Post 36.63 to Mile Post 40.50 on Transco's existing Leidy Line in Northampton and Monroe Counties, Pennsylvania

Downingtown Replacement:

7.15 miles of 42-inch pipeline replacement from Mile Post 1715.09 to Mile Post 1722.24 on Transco's existing Mainline, and minor piping modifications at Transco's existing Compressor Station 200 in Chester County, Pennsylvania

Conyngham Loop:

1.93 miles of 42-inch pipeline loop from Mile Post 26.09 to Mile Post 28.02 on Transco's existing Leidy Line in Luzerne County, Pennsylvania

Compressor Station Modifications:

Modifications at Transco's existing Compressor Station 195 in Chester County, Pennsylvania

Mainline A Modifications:

Modifications to various valves, valve operators, controls, and detection systems at four locations on Mainline A in Pennsylvania

Meter Station Modifications:

Modifications to five existing Transco meter stations:

- Hockessin Meter Station in Chester County, Pennsylvania;
- Wilmington Meter Station in Delaware County, Pennsylvania;
- West Parkesburg Meter Station in Chester County, Pennsylvania;
- Kennett Square Meter Station in Chester County, Pennsylvania; and
- Ivyland Meter Station in Bucks County, Pennsylvania

New Jersey:

Mountain View Loop:

3.78 miles of 42-inch pipeline loop from Mile Post 1783.00 to Mile Post 1786.78 on Transco's existing Mainline in Somerset County, New Jersey

Turnpike Loop:

1.17 miles of 42-inch pipeline loop from Mile Post 1808.19 to Mile Post 1809.36 on Transco's existing Mainline in Union County, New Jersey

Meter Station Modifications:

Modifications to five existing Transco meter stations:

- Cloverleaf Meter Station in Middlesex County, New Jersey;
- Erie Street Meter Station in Union County, New Jersey;
- Paramus Meter Station in Bergen County, New Jersey;
- Hamilton Meter Station in Mercer County, New Jersey; and
- Mount Laurel Meter Station in Burlington County, New Jersey.

In addition, various minor aboveground facilities such as valves and valve operators, launchers, and receivers will be constructed or modified. The project will be completed in two phases, with construction scheduled to commence on the initial phase in June 2008. The proposed Phase 1 facilities are scheduled to be placed in service on November 1, 2008; the proposed Phase 2 facilities are scheduled to be placed in service on November 1, 2009.
