What Does Your Health Department Do?

Your local public health department protects and improves the health and well-being of your community, as well as the environmental resources upon which we all depend.

Since 1900, the average lifespan of U.S. residents has increased by more than 30 years, with 25 years of this gain attributable to advances in public health, such as:

- Vaccination
- Motor-vehicle safety
- Safer workplaces
- Control of infectious diseases
- Decline in deaths from coronary heart disease and stroke
- Safer and healthier foods
- Healthier mothers and babies
- Family planning
- Fluoridation of drinking water
- Recognition of tobacco use as a health hazard

Today, your local, county, regional, and state public health agencies continue to promote health and wellness across New Jersey.

Your health department:

- Protects you from health threats. Your health department works to prevent disease outbreaks and makes sure the water you drink, the food you eat, and the air you breathe are all safe. We are also ready to respond to any health emergency — be it bioterrorism, SARS, West Nile Virus, or a new environmental hazard.
- Educates you and your neighbors about health issues. Your health department provides you with information that helps you make healthy decisions, like exercising more, eating right, quitting smoking, and washing your hands to protect yourself from communicable diseases. During a public health emergency, we also provide important alerts and warnings to protect your health.
- Provides healthy solutions. Your health department offers the preventive care you need to avoid disease and maintain your health. We provide flu shots for the elderly and help mothers get prenatal care to give their babies a healthy start. We also help provide children with regular check-ups, immunizations, and good nutrition to help them grow and learn.
- Advances community health. Your health department takes part in developing new policies and standards that address existing and emerging challenges to your community's health while enforcing a range of laws to help keep you safe. We work through research and staff training to maintain expertise and deliver up-to-date, cutting-edge health programs.

HILLSBOROUGH TOWNSHIP DEMOGRAPHICS

Hillsborough Township covers an area of 55.3 square miles. It takes almost half an hour to drive across the area at the farthest points. Hillsborough Township is home to approximately 40,000 people who live in over 12,000 housing units consisting of apartment complexes, condominiums and townhomes, 3 long term care facilities, and single family residences in suburban and rural areas. Sixty to sixty five percent of the 55 square miles is open space. Open space consists of agriculture, wooded areas, and wetlands. There are multiple parks, walking and biking trails in Hillsborough with more in the planning stages.

Route 206 runs through Hillsborough in a North South direction from North Jersey to Trenton. There is little mass transportation. There is no real center of town, but that is in the planning stages. The Peter J. Biondi Municipal Building is the center for many community activities but there are 9 public schools that are the hub for community activities involving children. There are 6 elementary, one intermediate, 1 middle school and 1 high school- with a total of 7500 Hillsborough students. Each school has regular clubs, recreational, and sports activities, and Wellness Teams. The Wellness Teams are made up of school nurses, parents, teachers, students, physical education teachers, and the food preparation consultant. Each year prevention activities are planned based upon the school criteria and the individual school needs. Each school has its own diverse population and individual wellness needs.

These opportunities for exercise and wellness are important to work towards the goals of the Somerset County Community Health Improvement Plan (CHIP). This plan was recently prepared using health statistics and survey study. The study showed that Somerset County residents enjoy a high standard of health, but they have need in areas such as chronic disease prevention such as diabetes, cancer, cardiovascular disease, and obesity prevention as a major contributor to these chronic illnesses. In addition, addiction and mental health issues - especially in a high level of suicide, are issues of concern. Access to health care is also an issue for some parts of the population.

Also, the NJ Department of Health tasks the Health Department with the job of inspection and enforcement, public health in accordance with the NJ Public Health Practice Standards.

- Retail Food Inspections- Including restaurants, school food service, farmers markets, fairs
- Communicable Disease Investigations- Includes reportable diseases according to NJ Department of Health regulations in Hillsborough residents, schools, child care facilities, and long term care facilities.
- Well Installation inspections and water testing in accordance with NJ Department of Environmental Protection regulations and local ordinances

HILLSBOROUGH TOWNSHIP HEALTH DEPARTMENT 2018 ANNUAL REPORT HIGHLIGHTS:

ENVIRONMENTAL PROJECTS:

- Winding Way, Euclid Ave., sewer line installation completion and remaining connections.
- Oxford Rd: GSA Runoff contamination soil cleanup completion approaching.
- DPW site groundwater testing- underground storage tank remediation nearing closure.
- Vacant and abandoned property management continues
- Onsite Wastewater treatment ordinance update
- Database and educational materials for wastewater maintenance plan completed
- Video about tick management for residents online

HEALTH EDUCATION:

- Implemented employee and community health education by supplying fresh produce to food bank clients and employees along with 2 nutrition education sessions and recipe books. Nutrition classes were given by a registered dietician. This program was financed by a grant received by the Greater Somerset Public Health Partnership, and was sustained by donation from the Greater Somerset Public Health Partnership to year 3 in 2018.
- Updated the website with handy health information including pet vaccination information, animal cruelty contact numbers, and education about wildlife.
- Video about tick management online for residents.
- Canvass conducted as well as notification of dog owners who failed to relicense. Increase in the number of dog licenses by finance office.

- Wellness teams in each public school formed to address specific health needs in each school. Summarized by student intern and presented at the 2018 Green Living and Wellness Fair.
- Free vaccination clinics with nutrition education and blood pressures offered to food bank clients.
- 2 blood drives with Robert Wood Johnson Barnabas Somerset
- Green Living and Wellness Fair collaborative held in June.
- Flu clinic with Dr. Frank and Walgreens at no cost to Township. These clinics are very convenient to residents - especially Seniors.
- The Hillsborough Health Department participated in the County Health Improvement Plan development for 2019 plan.

Hillsborough Township Health Department & You – Improving Health Together!

Each year in June, the Township combines efforts with the Hillsborough YMCA and other community partners to provide the Green Living and Wellness Fair right after the YMCA Hillsborough HOP 5K Race. There are environmental displays, health tests, dancing, and massages. It is featured on our website and is the biggest event run by the Health Department each year.

During 2018, Hillsborough Township Health Department also provided one or more services to MILLSTONE BORO

Staffing & Human Resources Summary

Fiscal Year Summary	2018 data
Total Number of Full-Time Equivalent Human Resources Available	6

¹Employees are individuals who are on the LHD's payroll and paid a set salary or hourly rate. This includes full-time, part-time, and casual/at-will/W-9 staff of the LHD.

¹ Contract staff are individual contractors or consultants who are not on the LHD's payroll, but who invoice or bill the LHD for services rendered on behalf of the LHD and are paid directly by the LHD as individuals (rather than as companies/organizations).

¹ Contract organizations are organizations that, under the terms of a contract, provide services on behalf of the LHD in exchange for payment, where the LHD pays the organization rather than directly compensating individual staff of the organization for their services.

Annual Financial Summary

Fiscal Year Summary	
% of revenue from Fees and Fines	6.8%
Total expenditures	\$505,064
Revenue minus Expenditures	\$36,637
Budget for next fiscal year	
Per capita expenditures	\$12.60

Inquiries, Issues, and Complaint Investigations: Improving Community Quality of Life, Health, and Safety

Local health departments assist residents in the resolution of quality of life questions and concerns, as well as conducting investigations to prevent and correct ("abate") conditions or uses of a properties that interfere with neighbors' use or enjoyment of their own properties or endanger life, health or safety.

Number of High School facilities	1
Number of High School facilities whose transfer school records were audited by the health department	1

The data on this page applies to (Hillsborough Twp, Millstone Boro)

Animal Care and Management

The Hillsborough Health Department inspects kennels and shelters annually, and provides a free rabies vaccination clinic each year, usually in January. Hillsborough residents are usually advised of additional free clinics in New Jersey that they can attend.

The Hillsborough Health Department also works closely with St. Hubert's Giralda, Hillsborough's contracted animal control officers. Their shelter is located in North Branch, just off Route 22 in Branchburg. They are on call 24-7. There is an Animal Alley section on the Hillsborough Health website. The Hillsborough Police handle animal cruelty and emergencies.

Animal Bites and Rabies Control

The Health Department must investigate animal bites to humans to ensure rabies is not transmitted. Also, if a domestic animal is bitten by a wild animal, they must receive a rabies booster shot and be observed for a certain time period to ensure they do not become rabid.

For more information, please see www.hillsborough-nj.org and go to "health" and "animal alley"

Key Facts & Activities	2018 data
Number of incidents where an animal bit a human	70
Number of incidents where a rabid or suspected-rabid animal bit a domestic animal (pet / livestock)	3
Number of unimmunized domestic animals that were confined for rabies observation after biting a person or another animal	3

The data on this page applies to: Hillsborough Twp. 3 Kennels and 1 Pet Shop inspected

Pet Licensing

Dog licensing is a NJ law as well as a Hillsborough Township regulation. In Hillsborough, the Finance Office does the dog licensing each year in January until the end of February. After that, a late fee is applied, unless the dog has never been licensed before.

Rabies Vaccination Clinics

• Brief description of what this service is all about. 1 -2 sentence maximum, this will be a part of the template that the LHD can delete if they want to.

For more information, contact NAME/PROGRAM at PHONE NUMBER or EMAIL

Key Facts & Activities	2018 data
Number of rabies vaccination clinics conducted by the health department	1
Number of pets vaccinated by the health department	263
Average number of pets vaccinated per clinic	263

The data on this page applies to: Hillsborough Twp.

Youth Camps

• Local health departments enforce safety and sanitation standards for the operation of youth camps in order to protect the health and safety of children who attend these programs.

For more information, contact NAME/PROGRAM at PHONE NUMBER or EMAIL

Key Facts & Activities	2018 data
	3
Number of pre-operational inspections conducted	3
Number of routine, operational inspections conducted	3
Number of routine, operational re-inspections conducted	3
Number of emergency & complaint-related inspections and investigations conducted	0
Notes and comments	
Re-inspection rate (percent of routine inspections that require re-inspection / follow-up)	0
Average number of routine inspections per establishment	0

The data on this page applies to: Hillsborough Twp. Also 1 Campground.

Recreational Bathing Facilities

• Local health departments conduct safety and sanitation inspections of public recreational bathing facilities (including swimming pools, lakes, rivers, streams, tidal bays, and ocean swimming facilities) to reduce the spread of communicable diseases and protect consumers who use these facilities from avoidable harm and danger.

Bathing beaches - Bays / oceans	0
Bathing beaches - Rivers	0
Bathing beaches - Lakes	0

The data on this page applies to: Hillsborough Twp.

Body Art, Tattoo, and Permanent Cosmetics Safety

Hillsborough Township has one body art facility and conducted one pre-opening inspection.

Retail Food Establishment Safety

• Local health departments inspect and regulate restaurants, grocery stores, and other retail food facilities to ensure compliance with safety and sanitation rules. Local health departments also investigate and control disease outbreaks linked to retail food facilities.

For more information, contact NAME/PROGRAM at PHONE NUMBER or EMAIL

Key Facts & Activities	2018 data
Number of licensed food establishments:	
Risk Level 1 - Establishments that conduct minimal food preparation and minimal handling of potentially hazardous foods	17
Risk Level 2 - Establishments that conduct limited food preparation and heat/cool potentially hazardous foods	72
Risk Level 3 - Establishments that conduct complex food preparation and heat/cool potentially hazardous foods	32
Mobile food establishments	6
Temporary - Establishments operating for no more than 14 consecutive days in conjunction with a single event or celebration	72
Other - Establishments that conduct ONLY specialized	5
Number of specialized processes overseen by the health department	5
Number of retail food establishment plan reviews conducted	6
Number of pre-operational retail food establishment inspections conducted	6
Number of routine inspections for the following types of retail food establishments:	
Risk Level 1 - Establishments that conduct minimal food preparation and minimal handling of potentially hazardous foods	17
Risk Level 2 - Establishments that conduct limited food preparation and heat/cool potentially hazardous foods	72
Risk Level 3 - Establishments that conduct complex food preparation and heat/cool potentially hazardous foods	32
mobile food establishments	6
Temporary - Establishments operating for no more than 14 consecutive days in conjunction with a single event or celebration	78
Other - Establishments that conduct ONLY specialized processes such as canning	6
Number of routine re-inspections for the following types of establishments:	
Risk Level 1 - Establishments that conduct minimal food preparation and minimal handling of potentially hazardous foods	1
Risk Level 2 - Establishments that conduct limited food preparation and heat/cool potentially hazardous foods	24
Risk Level 3 - Establishments that conduct complex food preparation and heat/cool potentially hazardous foods	10
Mobile food establishments	0
Temporary - Establishments operating for no more than 14 consecutive days in conjunction with a single event or celebration	0
Other - Establishments that conduct ONLY specialized processes such as canning	1
Number of non-routine emergency & complaint-related investigations/inspections:	
Investigations	1
	0
Inspections (other than routine inspections)	4
	0
Number of establishments on which the health department had to take one or more enforcement actions	0

Tanning Facility Safety

Hillsborough Township has 3 locations for tanning, and they are inspected annually.

Onsite Wastewater Disposal Systems Safety

• Local health departments conduct education, permitting, and inspections of low-volume residential and commercial onsite wastewater treatment systems (e.g., septic systems) to ensure that systems are designed, constructed, and maintained properly, thus improving New Jersey's water quality and protecting human health and the environment.

For more information, contact NAME/PROGRAM at PHONE NUMBER or EMAIL

Key Facts & Activities	2018 data
Number of system construction permits issued for final authorization to proceed with installations of new systems	27
Number of system construction permits issued for final authorization to proceed with repairs to existing system	8
Number of system construction permits issued for final authorization to proceed with alterations to existing systems that don't expand the capacity of the system	8
Number of system construction permits issued for final authorization to proceed with alterations to existing systems to expand the capacity of the system	0
Number of system construction permits issued for installation, repair, or alteration of advanced wastewater pretreatment systems	35
Number of system construction permits issued for installation, repair, or alteration of commercial facility systems	0
number of systems in this municipality	3000
Are required system construction inspections performed by the health department (or other government partner)?	Yes, the health department (or other government partner) performs some of these inspections. Third-party certifiers also perform some of these inspections.
Number of unduplicated noncompliant systems identified	3
Number of reality transfer system inspection reports reviewed	32
Number of systems identified as noncompliant as a result of review of reality transfer system inspection reports	32
Does the health department have a septic management program in place?	No towns are covered by septic management program
Number of septic management program inspection reports reviewed by the health department	
Number of system investigations conducted by the health department	175

The data on this page applies to: Hillsborough Twp.

Potable Wells and Drinking Water Safety

• Brief description of what this service is all about. 1 -2 sentence maximum, this will be a part of the template that the LHD can delete if they want to.
