

Current Trends: Opiates and Marijuana Extractions

**FREE Workshop
for Parents and
Youth-Serving
Professionals (ages
18+)**

**Tuesday, June 20,
2017**

6:00-8:00 PM

**Hillsborough
Municipal Building
(Multi-Purpose Room)
379 South Branch Road
Hillsborough, NJ 08844**

Presented by John Kriger, MSM, LCADC, ICPS

Newly updated, this highly acclaimed session offers an impactful overview the most up-to-date information available today on adolescent behavioral trends, focusing intensely on the two primary issues facing parents, and professionals today; Opiates and Extractions. Learn the most current information on these two high-risk behaviors, and how they are drastically changing the risk potential for every family. Discover the risks, various sources of information and what every parent and professional is up against.

Here are just a few of the questions answered in this program:

1. Why is Fentanyl so dangerous?
2. Are those who use these products at greater risk, than in the past; and if so why?
3. What are Budder, Shatter, Dab, Flakka and the Deep Web?
4. How are people becoming addicted to opiates and what are the risks?
5. What is Narcan and can it actually protect someone from an overdose?

This program is one of the most enlightening, "edutaining" and informative programs you will ever see. Get answers to the questions you have always wanted to ask.
