The PDFNJ presentation is supported by research which demonstrates that kids who communicate regularly with their parents about their daily activities are 67% less likely to be involved with substance abuse than children who have little or no communication.

A presentation for parents, grandparents and caregivers of students in grades 4 through 12. Spend an hour learning how to talk to your kids about drugs and alcohol.

This is a free, one-hour, interactive powerpoint presentation that informs, encourages and empowers parents to listen and communicate effectively with their children in order to prevent substance use.

This presentation covers topics such as:

- Talking to your kids about drugs and alcohol
- Effects of specific drugs
- Strengthening parenting skills
- Utilizing teachable moments
