*Things to Know if you are Thinking of Replacing Your Roof*

Recently, there have been some changes enacted and mandated by the Department of Community Affairs. Requirements for roofing permits have been one of the major changes. Here are some things to know if you are thinking of replacing your roof:

- Single Family Dwellings (Detached - MEANING a home that stands on its own, and not connected to any other homes) for roof tear off - no permit is required, but if you are doing a roof over lay a permit is required.
- Single Family Dwellings (Attached - i.e. Townhouse or Duplex) a permit is still required for roof tear off or roof overlay.
- Any other structures not attached to your home (i.e. detached garage or pole barn) a permit is still required for roofing.

If you have any further questions please contact the Building Department.

## Engineering

### *Be Cautious about Accepting Soil*

Spring has arrived and many homeowners may want to improve their property by adding or removing soil.

The Engineering Department advises residents to be cautious about accepting soil for their property. Some have accepted soil from locations, which could possibly contain debris, rubble or other contaminants. In one case a resident accepted "free" soil which was contaminated. The homeowner had to pay to have the soil removed and afterwards learned the soil was from a construction site. The "free" soil turned out to be a very expensive undertaking. It is recommend you purchase soil from an approved soil supplier or make sure they are certified by the New Jersey Department of Environmental Protection agency.

Hillsborough Township has a Soil Permit Ordinance designed to protect residents against such occurrences. It prohibits the importation of soil without first obtaining approval from the Engineering Department. If you are thinking of improving your property, before you either remove or accept soil, dirt or other fill material, be sure to contact the Engineering Department to advise and obtain the proper permit. The Hillsborough Engineering Office can be reached at 908-369-4460.

Following the proper procedures can save residents from significant costs associated with removal of contaminated soil as well preventing penalties.

#### **DIRECTIONS:**

Spring Reins of Life makes its home at Hunt Cap Farms at 401 Main Street, Three Bridges NJ 08887.

HCF is a private facility that by grace, we are leasing a portion of. GPS will reliably get you to the specific area but then it quits or lies – so here is the secret map: Main Street is really CR613 (Old York Road), the driveway to the farm entrance is the only driveway on the west side of Main Street between the double set of RR tracks and the Raritan River Bridge (entrance is much closer to the river than the railroad). There is a small lamppost black & white sign in front of a white house that says "Hunt Cap Farms".

DRIVE VERY SLOWLY on the short gravel driveway, there will be SRoL Volunteers to help you park. Do not approach the white house (private residence). The SRoH/SRoL barn is at the end of lot where the elbow of the annex is. We ask for 7-10 mph in and out of the driveway because there are loose animals about – puppies, a mini named Crazylegs, a trio of goats, and our therapy cat Red...and we love them.
