80-89	3
90-99	0
100+	0
Total Cases	38
Total Recovered	7
Deceased	1

If you are a Hillsborough resident and have tested positive for Coronavirus / COVID-19, please contact the Health Department at 908-369-5652.

The Hillsborough Township Health Department continues to monitor all cases and is working with the State to identify any potential contacts for follow-up. A representative from the Hillsborough Township Health Department will reach out to all individuals determined to have been in close contact with the positive testing persons within 24-48 hours of each case being confirmed.

Where and how do I get tested for COVID-19 in New Jersey? Who should get testing?

At this time, testing is prioritized for individuals who are sick with symptoms of fever, cough and shortness of breath where they need hospitalization, those who are close contacts of confirmed COVID-19 cases, and individuals who traveled to/from highly affected areas.

If you do not have symptoms, testing is not recommended. Complete this [self-assessment](#) to learn what to do.

You can find testing site locations and hours [here](#) .

There are three types of testing sites:

- **Community-based testing sites** - These sites are open to all New Jerseyans who are experiencing symptoms of respiratory illness
- **County testing sites** - These sites may be restricted to residents or first responders of a specific county. Some also require an appointment and/or prescription from a healthcare provider.
- **Private testing sites** - To access testing at these sites, you must contact your doctor or healthcare provider.

NOTE: Each testing site operates on a schedule and has specific requirements. Please check with that site before visiting as you may be turned away.

You can find more information about each testing site [here](#) .

Hillsborough is Open for Business
