Kyle Toland Rejuvenates Fire Pit at Ann Van Middlesworth Park

On Tuesday, August 24th, Mayor Shawn Lipani stopped by Ann Van Middlesworth park for the inauguration of the recently refurbished fire pit. The Mayor also congratulated prospective Eagle Scout, Kyle Toland, for his fantastic work in refreshing the fire pit area.

Kyle, a member of Scout Troop 1776, along with several volunteers, trimmed overgrown bushes, swept and tidied the brickwork, and refurbished the firepit itself. Kyle also installed a new bench, and, in compliance with Fire Safety, set up a sand bucket.

We thank Kyle and his team for helping to make Hillsborough one of the best places to live in America and wish him the best of luck with his future endeavors.

Hillsborough Prepares for Impending Storm

On Tuesday, August 31st, Hillsborough Township's Office of Emergency Management conducted a Storm Preparedness Meeting with essential emergency personnel. Police, Fire, Rescue, Township Administration, Department of Public Works, Engineering, Health, and Social Services were in attendance to review the mobilization plan.

911 Reminder

An important reminder that 911 is for emergencies only. For non-emergencies, please call 908-369-4323.

Flood and Flooding Reminder

- DO NOT drive onto a flooded roadway
- DO NOT go around barriers
- DO NOT drive through flowing water.

If you approach a roadway that is flooded, **TURN AROUND - DON'T DROWN**. It takes just 12 inches of rushing water to carry away a small car, while 2 feet of rushing water can carry away most vehicles. It is **NEVER** safe to drive or walk into floodwaters.

Drive with extreme caution if roads are even just wet or it is raining. You can lose control of your vehicle if hydroplaning occurs, which is when a layer of water builds up between your tires and the road, causing there to be no direct contact between your vehicle and the road.

Be cautious of broken or leaking gas lines, flooded electrical circuits, submerged furnaces or electrical appliances, and flammable or explosive materials coming from upstream.

Turn off the main power switch before floodwaters crest if you think the electrical circuits are going to be underwater. Never touch the switch while you are wet or standing in water. Do not turn the electrical system back on until it has been inspected by an electrician.

Know what a river height forecast means for your property especially how far your property is above or below expected flood levels.

Know where to go in case of flooding. Remember that you must seek higher ground as quickly as possible, on foot if necessary.

Visit the [American Red Cross website](#) for more information about flood safety and preparation.

New Traffic Pattern at the Municipal Building

The public is to be advised that there is a new traffic pattern at the front of the Municipal Building.

Veterans Way is now a (1) one-way aisle with some parallel parking and a loading zone for delivery trucks. The revised layout creates a safer traffic circulation along the front of the building and eliminates delivery trucks parking in the drive aisle causing unsafe conditions.

Additionally, blue line striping is installed, not only on portions of Veterans Way but also around the sides of the building toward the police parking lot.

Back to School Reminders from the Hillsborough Township Police Department

The Hillsborough Township Police Department reminds everyone that school is back in session, which means increased pedestrian traffic as some students walk to school. Residents should also expect increased bus traffic.

Please be alert to flashing lights on stopped buses as children are entering and exiting the buses. Passing a stopped bus with warning lights activated can result in a 5 point violation and substantial fines.

When traveling on a divided road, such as Raider Blvd. or Triangle Rd., and on the opposite side of the median as the bus, you are not required to stop, but must reduce speed to 10 mph.

The Police Department will be monitoring school bus stops and active school zones throughout the school year. Motorists should allow for extra travel time and anticipate increased volume around school facilities.
